

Warrior Transition Unit (WTU)/Community Based Warrior Transition Unit (CBWTU) Recruiting Process: Recruiting qualified Soldiers to fill all cadre positions

Point of Contact

Division: Office of the Chief Surgeon (ARNG-CSG)

Description

The recruitment of WTU/CBWTU cadre is a combined effort between Regular Army, the ARNG, and the Army Reserves. The NGB Warrior in Transition Section is responsible for resourcing qualified personnel to fill pre-designated ARNG positions. There is continuous communication with WTU and CBWTU Regional Medical Command and the NGB regarding open cadre positions. The NGB Warrior in Transition Section has various marketing tools available to seek out qualified applicants for the open cadre positions.

Soldiers utilize DAMPS-A to initiate application packet for WTU/CBWTU cadre positions

Systems

[Department of the Army Mobilization Processing System-A \(DAMPS-A\)](#)

DAMPS-A is an unclassified web application developed by G-3/5/7, DAMO-ODM, to initiate, track, and approve reserve component (RC) volunteer packet requests for contingency active duty for operational support (CO-ADOS) tours. DAMPS-A allows RC soldiers and force requestors to submit packets on-line. Information is digitally extracted from authoritative databases to complete required data personnel fields then submitted electronically for command endorsement. Endorsed requests are then transferred into DAMPS-S for HQDA approval.

Department of the Army Mobilization Processing System (DAMPS)

DAMPS is an application suite/engine for workflow, decision support, document management and ad hoc reporting.

DAMPS is currently in use by the Department of the Army for tracking the mobilization process of US Army Reserve and Army National Guard units and individuals.

[Guard Knowledge Online \(GKO\)](#)

Guard Knowledge Online (GKO) is a Web portal that provides support functionality to the National Guard community. The primary role of GKO is a knowledge management tool for information sharing through the entire Army National Guard

community, including document, file, and image libraries. The site provides check-in / check-out version control, change notification, and announcement posting. The GKO calendar can integrate with Microsoft Outlook to manage and track tasks and meetings. In addition, GKO allows for audience specific threaded discussion pages and easy survey creation.
